

2022 FPA Advocacy Campaign

Action for the Board to consider include the receiving and reviewing of the proposed FPA 2022 Advocacy plan, recommend changes if necessary and adoption by motion. The Board was advised at the previous meeting that Governmental Affairs Council Chair Kevin Duane was unable to attend the meeting. This item has been deferred from the last meeting of the Board of Directors.

As GAC Chair Kevin Duane was unable to attend the Board meeting, a draft plan was presented by EVP Michael Jackson and include the following recommendations:

- General PBM reform working with the Empower Coalition
- Revision to the 3 hour vaccine safety CE requirements that are currently restricted to the Florida Medical Association
- Recommendation that the Board of Pharmacy be encouraged to consider rulemaking on standard of practice – patient safety
- Monitor proposed legislation addressing white bagging and brown bagging
